A Chief Is Mourned

(An Editorial)

We cannot say, without being hypocritical, that we agreed with many of the policies of John F. Kennedy.

We can and do say that the death of this dynamic and often harassed young man has left an unconsolable sorrow in our heart.

Those who love America must love the Presidency. And it would be difficult to love the Presidency without feeling a family affection for the man who holds the office—regardless of politics.

We criticized many of his policies and we still hold firm to our convictions—but when a killer's bullet cut him down we realized how deep was our feeling for this strapping Irishman from Massachusetts who moved his rocking chair into the White House two generations after his family left the Old Sod.

As an American we felt a keen sense of pride in the courageous conduct of Mrs. Kennedy during the nightmare which had so swiftly engulfed her.

May God's strong arm support and comfort her and her fatherless little ones, Caroline and John John.

It is our prayer that the blood of our chief—felled while his youthful brow still was unfurrowed—will cement us together as one nation under God, seeking liberty and justice for all.

Let us now turn to our country with a new dedication, pledging support wherever possible to the new chief executive on whose shoulders the awful burden of government falls.

'Grant Eternal Peace'

BY FRED TRIPP

A bell tolling on a gray, wintry day.

A parish church on the plains of Texas.

An age-old plea, chanted in the tongue of an age-old faith.

"Eternal rest give unto him, O Lord, and let perpetual light shine upon him..."

And quietly, gravely, to be a part of that plea in body and spirit, the people came from farm and office, shop and home.

Young and old, men and women, boys and girls, babes in arms.

Some were dressed in sombre elegance, gloved and hatted against the cold. Others wore the serviceable neat garb of their everyday business and occupation. Nearly all carried prayerbooks and rosaries.

Braving the sharp north wind, they came Monday morning to St. Mary's Parish Church at Umbarger for a Requiem Mass that commended to God the soul of John Fitzgerald Kennedy, fallen President of the United States of America.

They crowded the little church to capacity, then ranked themselves against the rear wall, kneeling on the tiled floor as the Right Rev. Msgr. W. F. Bosen conducted the ritual that is the most solemn part of the Roman Catholic burial service.

At intervals their eyes turned to the symbolic catafalque placed in the center aisle, just outside the altar rail. Over it lay a shroud of black velvet, without adornment except for a border of silver thread and, in silver embroidery at each end, a single word, "Pax," the Latin word for "Peace."

Wearing a vestment of black over gleaming lawn, the Right Rev. Fr. Bosen led choir and congregation through a sequence of prayers of praise, thanksgiving and petition leading up to the communion rite. "Lord, have mercy upon us..."

"Christ, have mercy upon us..."

An odor of incense, the fragrance of faith...

The great promise, foundation and keystone of Christianity:

"I am the resurrection and the life..."

Approaching the symbolic bier, the Right Rev. Fr. Bosen spoke briefly, bidding his audience to remember the President in their prayers, "and also the young man accused of..."

A SYMBOLIC catafalque stood at the altar rail of St. Mary's Parish Church in Umbarger Monday morning as Msgr. W. F. Bosen, pastor, celebrated Requiem Mass for John F. Kennedy. Worshipers filled the pews and stood at the rear of the church.

Band Group Begins To Raise Funds

Canyon band parents will be out in full force next week in an effort to raise money for the band students of the Canyon school system.

W. H. Hobbs, president of the Band Parents club and chairman of the fund-raising drive, will lead the group in selling birthday calendars and subscriptions to the Canyon News.

Band parents will be divided into four groups and will canvass the town in a door-to-door campaign selling calendars which will have birthday, anniversary and memorial dates printed on them.

Persons wishing a certain date printed on the calendar will give a band representative \$1. The dollar will provide the person with a calendar and will list a date requested. Additional listings will cost 25 cents.

A family plan for large families makes it possible to buy a calendar and list all the names in the family for only \$2.

Subscriptions to the Canyon News will also be sold by the band parents in an effort to raise money. Subscription rates are \$4 for local subscriptions and \$5 for papers going some distances from town.

PROCEDURE QUESTIONED County Court Case May Spur Law Test

In what may develop into an important test of law, a jury in Randall County Court last Thursday ruled that Lawrence R. LaRoche, Jr., 24, of 3617 Lenwood, Amarillo, was an "habitual reckless or negligent operator of a motor vehicle."

The ruling in effect sustained the May 29, 1963, judgment of Amarillo corporation court and the subsequent suspension of LaRoche's driver's license by the Texas Department of Public Safety.

Walter P. Wolfram of Amarillo, counsel for LaRoche, indicated he will take the case to Seventh Court of Civil Appeals in Amarillo.

LaRoche did not personally appear in the civil proceedings here, but through his counsel he contested jurisdiction of the court and validity of the evidence.

Questioned by Wolfram in the absence of the jury, B. H. Rig-

ler, deputy custodian of DPS records at Amarillo, said LaRoche had been notified of the pending corporation court action by registered mail and that the notice had been returned as not received.

Representing the DPS in a civil capacity, George Dowlen, acting criminal district attorney for Randall County, argued from the relevant statute that a registered letter sent to a licensee's last known address constituted adequate notice in cases involving suspension of license.

Wolfram took the position that since LaRoche had not actually received the notice, the constitutional requirement of due process had not been met, and therefore neither the Amarillo court nor the Randall County Court had jurisdiction.

He also objected to proposed introduction in evidence of a

PLAYOFF THURSDAY

Top Teams Meet Here

Dalhart will meet Muleshoe in a AA regional football play off game in Canyon Bowl at 2 o'clock Thursday afternoon.

This announcement was made Monday night at a Canyon Chamber of Commerce meeting. Hosts for the occasion will be the Chamber and West Texas State University.

Dalhart defeated Tulia last week and Muleshoe rolled over Denver City to get to the regional play off.

The Chamber and university entered into an agreement as to areas of responsibility in bringing play off games to the stadium here.

Chamber manager Roland Black reported that the 2300 block of Fourth Avenue will be decorated for Christmas this year.

Christmas decorations for Canyon will be put up shortly after Thanksgiving.

Dr. Charles Jarvis, San Marcos dentist, will be speaker for the annual Chamber banquet to be held January 9. Program chairman for the occasion is H. R. Fulton.

In other action the Chamber voted to cooperate with the Junior Chamber of Commerce in construction of a "Santa Claus House" for use during the Yule season. The Chamber will spend \$125 and the Jaycees \$100 on the undertaking. The collapsible house may be used year after year.

Poole On 2-AA Ace Grid List

Senior Eddie Poole of Canyon has been named as an All-District selection for 2-AA at his end post for the second consecutive season.

He was the only member of the squad to be named on the first team. Poole made first team both offensively and defensively.

He received the same honor last season.

For the season Poole snagged 15 passes good for 316 yards. His efforts on defense, as well as offense, helped the Eagles to the district championship in 1962 and to a 4-6 mark this season.

Charles Shelton, senior, of Tulia was the other first team end.

Tackles were Jim Sharp and Phil Tucker both of Tulia; both are seniors. The guards, both juniors, were Bill Potts, Floydada, and Guy Robinson of Lockney.

Dennis Griffith of Lockney received all four first place votes at center. He is a junior. Tulia's Frank Hooper, a senior, also received all four first place votes at quarterback.

Senior fullback was Rusty Smith, Lockney, with four first place votes.

Halfbacks were Jeff Tucker, Tulia, Vernie Moore of Floydada. Tucker is a junior and Moore a senior.

The annual Union Thanksgiving Service in Canyon was to be held at 7:30 p.m. Wednesday in the Assembly of God Church, 905 23rd St.

The Rev. Jack Boyett, pastor of Calvary Baptist Church, was guest speaker. The Rev. A. I. Pettit, pastor of the Assembly of God Church, was host to the service.

Special music was presented by the Canyon High School Choir, directed by Gene Murray.

Other Canyon pastors participating in the program were the Rev. Lars Hamerson, First Presbyterian Church; the Rev. Strauss Atkinson, First Baptist Church; the Rev. Dale Harter, First Christian Church; and the program chairman, the Rev. Newton Starnes, First Methodist Church.

Pastors Plead For New Unity

In a statement issued Tuesday, members of the Canyon Ministerial Association reaffirmed "our commitment to the Christian faith," urged all persons to pray for President Johnson, Gov. John Connally and "others in authority," and asked for an end to attitudes which promote hate, fear and violence.

The statement, based in part on the text of the speech which the late President Kennedy was to have delivered in Dallas on the day he was assassinated, was issued over the names of Lars Hamerson, James M. Dunn, Newton Starnes, Joel Treaswell, Charles Hastings, A. J. Pettit, Dale Harter, Bob Hart, Jack Boyett, Marcus Adair, Strauss Atkinson and Wilfred Eckhardt.

Text of the statement is as follows:

"The righteousness of our cause must always underlie our strength," were the words from the text of the late President John F. Kennedy in the address he was to deliver at Dallas, Texas, on November 22, 1963.

"The Ministerial Association of Canyon would affirm this call to righteousness on the part of each of us.

"Mr. Kennedy would have closed his address with the words from Psalm 127:1 'Except the Lord keep the city, the watchman waketh but in vain.' The late President recognized the call of the Hebrew writer to dependence on the Lord.

"The Christian faith has always asserted the relevance of

Most Stores To Observe Holiday

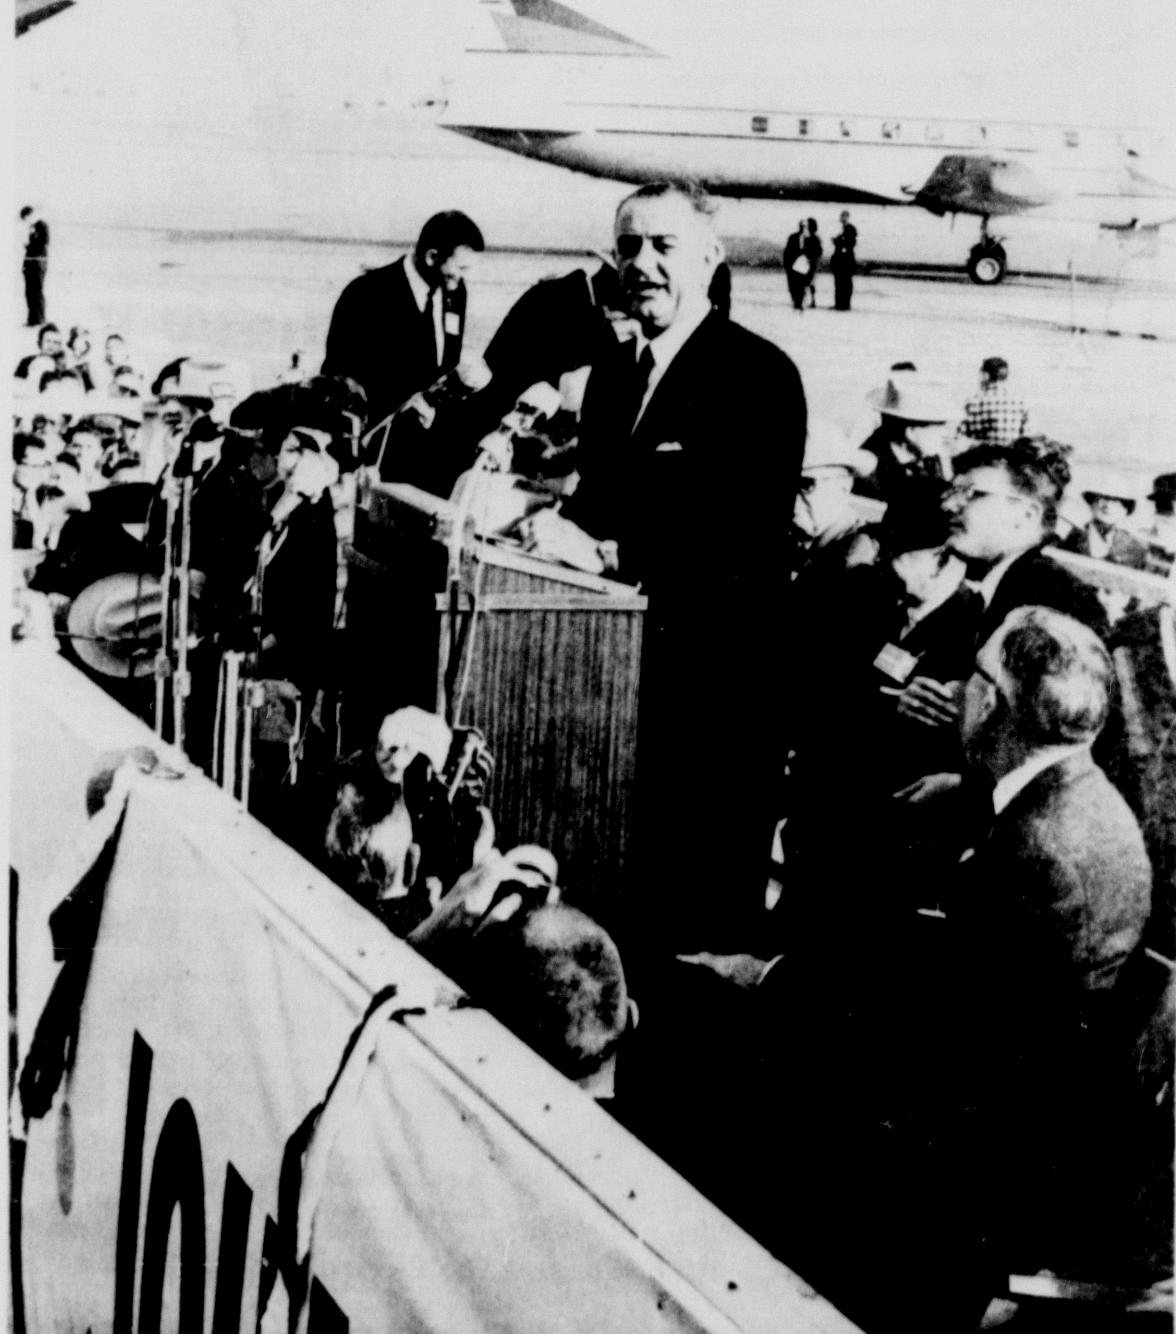

The Retail Merchants Committee of the Canyon Chamber of Commerce has designated Thursday, November 28, as the official Thanksgiving holiday.

A majority of the business firms will be closed in observance of the holiday.

IN A TIME of sorrow the people of Canyon flocked to their churches Sunday to pray for the family of the late President John F. Kennedy. This picture was taken as the congregation left

First Baptist Church. The pastor, Dr. Strauss Atkinson, invoked Divine guidance for the nation's new chief, Lyndon Johnson.

This Canyon News photo of President Lyndon B. Johnson was taken at Amarillo Air Terminal in the fall of 1960 when Johnson was in this area on a campaign tour. The new President visited Canyon in September of 1959, when as majority leader of the Senate, he was speaker for the fall convocation at West Texas State.

FROM THE
CANYON RIM

We hope the country will not be too quick to judge the flamboyant Texan who now is our head of state.

Any man who takes over in a time of near chaos following the death of a President does so at an extreme handicap. Two cases we have in mind are those of Andrew Johnson who replaced the slain Lincoln and Harry S. Truman who succeeded Franklin Roosevelt.

Neither of these men were chosen to the office for reasons of power. Neither Lincoln nor Roosevelt needed the help of a vice-presidential running mate to pull them into office.

This is not the case of Lyndon Johnson who was bidden to the Democratic ticket in 1960 by the standard bearer himself. John Kennedy chose Lyndon Johnson as a running mate for two probable reasons, both having to do with power.

Of number one concern were the electoral votes Johnson could swing for the New Frontier ticket in the South. Kennedy needed these votes. As it turned out, he could not have won the Presidency without them.

Secondly, and of almost as great importance, Kennedy needed to tie the third most powerful man in the nation to his administration, when and if elected. JFK could not afford a powerful adversary on the loose in his own party.

He bound Lyndon Johnson and his friends to the New Frontier with the gossamer cords of the vice-presidency.

In Lyndon Johnson we do not have the run of the mill vice-president ascending to the office of chief magistrate of the land.

LBJ is a seasoned politician, well versed in statecraft, diplomacy and international aff-

airs. He is an informed President-in-all probability more so than was his predecessor.

He has fought the rough and tumble battle of politics to the top of the heap. It will be interesting to see this man transformed by his high office--develop in the Presidency.

We interviewed Lyndon Johnson once when he was Senate Majority leader. We asked him about Duval County and George Parr, sometimes known as the Duke of Duval.

Johnson was elected to the Senate in 1948 by a razor-thin majority accounted for in Duval County voting. The Duval vote was several days late in being finally tabulated.

Coke Stevenson, Johnson's opponent, bitterly assailed the Duval long count.

It was several years later that we talked to Johnson about it.

Johnson declared emphatically that he had no knowledge of what went on in the Duval County balloting.

During his years in the Senate we had occasion to call on Johnson's office for information. The senator or his aides always were straightforward--never beating around the bush.

We were disappointed when he accepted second place on the Democratic ticket in 1960. We had been under the impression that he was pledged not to do so.

Regardless of what has gone on before, the new president deserves better than pre-judgment. From this day forward let Lyndon Baines Johnson write in a new book the chapters of his administration by which his fellow Americans and history will judge him.

Hilltop Views

Although millions and millions of words have been spoken and written by countless numbers of my fellow citizens I cannot refrain from making a few observations in this column about our great national and international tragedy.

1. Regardless of how civilized a community or nation may be there is always a small per cent of its people who, if not insane, are at least abnormal, or unstable, or poorly motivated, or poorly circumstanced, or perhaps have inherited anti-social tendencies. Both of the recent Dallas assassins come under one or more of the above producers of crime.

2. Poor parentage is a major cause of our rapidly growing crime rate. The failure at this point is partly due to this materialistic age. Money, fine homes, fine cars, abundant leisure, sports of all kinds, T. V. & radio, trashy news stands, plenty of spirits in the refrigerator--these and other things of their kind are giving young people a false impression as to what life is about. Intellectual, cultural, moral, and spiritual values lose priority and thus let down the bars to a belly civilization. Homes that maintain truly Christian standards are tremendous preventives of crime.

3. While television is highly valuable in many ways it is also tremendously damaging in others. For example, many of its programs stimulate sex irregularities and encourage free love;

Little more can be said concerning last week end's tragic happenings. As more and more information is released the general public probably will be told of the true reasons behind the assassination of President John Fitzgerald Kennedy.

Civic-minded people all over the nation cannot help but be shocked over the third killing this week end of Lee Harvey Oswald. This man, accused of assassinating the President of the United States, was forbidden the right to a fair trial by his peers. No matter how indignant the American people may become over an act so violently committed, every man has the same right under our judicial procedure.

We wonder if this does not point up the dangers of existing primarily on emotions, rather than using the rational reasoning powers each individual possesses. Last week end's events were shocking and stunning, and very naturally emotional, but Americans should be the strong advocates of being guided by reason. We must think through every act we commit, whether we are dealing with other nations or with fellow countrymen. Decisions made

from deliberate thought are more profound and generally more constructive than those made in a moment of emotional upheaval.

The sudden and violent death of the President made us all take a slow inward look at ourselves and our country. Perhaps we realized the important position the United States holds among countries of the world, and perhaps we realized the small part we each play in the world's activities. And yet the insignificant citizen is necessary in the workings of our government. National policy is built around the individual. The opinions of the individual are important and meaningful in the operation of U. S. government. Therefore it is important that we as citizens be aware of what is happening not only in our nation but in nations throughout the world. We must be informed as to crisis occurring in every section of the globe. With informed citizens supporting our government, we will become a stronger nation. And as informed citizens we will be less inclined to depend on irrational actions as a means to express ourselves.

others condone a free use of intoxicants and strive to make them not only respectable but socially profitable. All of them encourage the use of cigarettes, which science has repeatedly proven to be damaging to the human body. The T. V. Western greatly exaggerates the wild side of the old West and makes heroes out of desperadoes.

4. All these things are mentioned (and others might be) by way of saying that the American people have created a climate favorable to the production of crime, or more accurately, to the production of criminals. Such a climate makes it easier for youth to become delinquent and thus enter an open door to a career in lawlessness. Moreover, such a climate makes it easier for people of criminal tendencies to hold up a filling station, rob a bank, or murder a president.

5. With reference to the recent tragedies in Dallas, the above

conditions may be thought of as only background-important, indeed, but not immediately and strictly relevant. However there are those who think that President Kennedy's assassination was the culmination of the prolonged, unceasing, high-level, wide-spread, vitriolic criticism of Mr. Kennedy and his whole administration. News media in large measure have been particularly persistent, creative, and sometimes nasty in seeking to develop anti-Kennedy sentiment. In fact, much of what the newspapers have given us has been pure propaganda rather than news. By and large big business has exerted the same kind of influence. Leaders of the party out of power are not wholly blameless either.

6. The combined influence of these and other agencies has created a pessimistic and distrustful atmosphere and has developed some decidedly undemocratic sentiment. So intensive and persistent and bitter has criticism become that positive hatred of Kennedy and everything he said and did has become a fetish with all too many--some mighty good folks among them. Former Vice-President Nixon spoke wisely in this connection when he warned the public following the assassination that hate has no appropriate place in the life of our republic.

7. The truth is, quite a bit of the bitterness toward President Kennedy was engendered by a false representation of facts. How often and how widely it has been asserted that Kennedy's foreign policy had alienated many of our foreign friends! The presence of delegations from more than 100 nations at his funeral effectively denied this indictment. His statesmanship was widely attested with praise ringing with sincerity by world leaders of unquestioned standing.

8. It must be a source of great satisfaction to all lovers of our country that Republican leaders in and out of Congress, including the national party chairman and leading candidates for president, have promptly declared an adjournment of politics for the remainder of this year. If both political parties would base their campaigns upon documentable facts we would have less pessimism and hatred at home and greater respect abroad.

9. The demonstrated affection for President Kennedy by the American people was both amazing and heartening. People of all faiths, races, economic status, and political ideologies joined in mourning the death of their president. It is said that 800,000 of them attended his funeral. This should convince all doubters at home and abroad that in crisis the American people are one.

10. Lyndon Johnson is on the hottest spot in the world. He deserves, and the welfare of the nation demands, that all men of good will shall give him their utmost support. If anyone is not so disposed let him imagine himself in Johnson's place.

Now you see it. Now you don't. When a Chevy II does that kind of disappearing act you know without looking twice: It's a '64 with a V8 engine.

That's right. A full-grown 195-hp Turbo-Fire V8.*

It's available for the first time this year along with a choice of three other engines--the standard 4 (in 100 Series sedans), the standard 6 and a new 155-hp 6.* (And all of them maintain their high spirits on modest amounts of regular gasoline.) But the changes aren't confined to what

happens when you slip into the driver's seat.

There are new styling features like the tasteful grille design and trim accents, for instance. And the larger self-adjusting brakes that further reduce upkeep on a car that already has a reputation of coming about as close to perpetual motion as anything on four wheels can get.

Beta Sigma Phi Has Business Meeting

The regular meeting for Chi Upsilon chapter of Beta Sigma Phi sorority was held last Monday evening at the Girl Scout House in Canyon with members and new pledges standing for the opening ritual.

Mrs. Allen Simpson, president, conducted a business meeting during the evening and introduced Mrs. Elmer Clement, a past president, who reported on the recent area convention held in Plainview and discussed the second place that was won by the local chapter's yearbook. The award was presented to the

chapter at the meeting.

Members of the sorority are conducting a raffle on 20 books of Gunn Brothers Stamps at the present. Winner of the raffle will be announced following the next regular meeting on December 2 at the Scout House. Donations and proceeds from the raffle will be used for sorority projects throughout the year which include the Girl Scouts, Girlstown, an International Endowment Fund and an International Loan Fund along with various other community projects.

Canned goods were collected and a committee appointed to distribute a basket to an "adopted family" at Thanksgiving. The same family will be remembered at Christmas.

Secret sisters were revealed with a gift at the meeting and new names were drawn for the coming year.

The cultural program of the evening was entitled "Expression" by Mrs. Jim Marshall who presented a reading as an example of the true meaning of expression.

Tea Ends G.S. School

An afternoon tea for their mothers concluded the Girl Scout "cooking school" last week.

The annual cooking school, sponsored by the Southwestern Public Service Company, for fifth grade Girl Scouts included a six week instruction course in cooking taught by Mrs. Marilyn Prickett, home economist for the company.

An artificial arrangement of fall flowers centered the tea table that was laid with a green linen cloth. Punch, nuts and cookies were served to the Girl Scouts and their mothers. The cookies were made by the girls during one of their cooking lessons and frozen until the school was completed.

An appreciation gift and card were presented to Mrs. Prickett at the afternoon tea.

The program also included a presentation of cooking merit certificates to the girls who participated in the school. The certificate represents one of the requirements needed for the cooking merit badge for Girl Scouts. A Redi-Kilowatt pin was also presented to each girl.

Certificate awards were presented to Cindy Cox, Vicki Cooper, Cameron Davis, Judy Farmer, Rena Cayle Hillier, Cindy Kuhlman, Mary Ann Lindsey, Connie Ormsby, Kathy Flynn, Susan Rasco, Kathy Gist, Marilyn Schutte, Ginger LaGrone, Brenda Shell, Marsha Hager, Beth Starnes, Janet Thomas, Rebecca Haley, Dianne Williams, Kim Tucker and Jan Westfall.

series of citations for traffic law violations on grounds the citations were not certified copies of judgments but merely traffic tickets on which disposition had been noted.

County Judge Wayland C. Angel overruled both objections. In the presence of the jury Dowlen introduced in evidence 19 citations issued to LaRoche during the period March 9, 1956, to March 19, 1963.

Both sides then closed. The jury was charged to find on the single special issue of whether a preponderance of the evidence showed that LaRoche was an habitual reckless or negligent driver.

In final argument, Wolfram attacked the evidence as going back to a time when the licensee was 17 years old. He pointed out that LaRoche had received only one citation in 1963.

Dowlen countered with the argument that the record as a whole showed no improvement over the seven-year period. The jury then retired briefly and returned an affirmative answer to the special issue.

Decision of the appeals court, if an appeal is taken, would be awaited with interest as bearing significantly on procedure under the present statute governing suspension of a driver's license.

The court here also disposed of two other cases last week. A jury verdict of guilty was returned against Mrs. Kathleen M. Clint, 300 N. Bellevue, Amarillo, who was assessed a fine of \$30 and court costs. Mrs. Clint had been charged with driving her car at 90 miles an hour on a section of the expressway with a speed limit of 60 miles an hour at the time the offense occurred last July 20.

The jury returned a verdict of not guilty in the case of Charles A. Thorne of Amarillo, who had been charged with driving while intoxicated.

"We urge all men to pray for President Lyndon B. Johnson, members of his Cabinet, the Governor of the State of Texas, and for others in authority. The words of the Apostle Paul in the First Letter to Timothy remind believers to pray for all men, 'for kings and for all that are in authority.'"

"We appeal for the proper respect and honor for all constituted authority. Romans 13:1 commands that 'every soul be subject unto the higher powers. For there is no power but of God: the powers that be are ordained of God.'"

"We plead for a unity based on clear Christian thinking whereby the Church will confront the perplexities of a changing social order. The crisis of this hour in the political realm causes the Christian to face with a new seriousness his affirmation of the eternal truths which bind all Christians together."

"We remind ourselves of Christ's command to love one another. Christians must reject extremism which gives birth to hate, thrives on fear, and ends in violence. Christianity is incompatible with any movement which provides a soil for the irresponsible individualism which demands self-expression but knows no self-control."

Topay Dies In Lawton

Topay, last surviving wife of Quanah Parker, Comanche war chief, died Nov. 19 in the Indian hospital at Lawton, Okla., according to information received here Tuesday by Boone McClure, curator of Panhandle-Plains Historical Museum.

The newspaper clipping sent to McClure by a resident of Cache, Okla., reported Topay's age as "93 or more." McClure said he believed she was "about 103, on the basis of information she gave us when she visited the museum here."

In August, 1960, Topay gave the Panhandle-Plains Museum a war bonnet and war lance which, she said, were formerly the property of Quanah Parker. "At that time she said she was 15 years old when Quanah fought at Adobe Walls," McClure said.

The fight at Adobe Walls was in 1874.

Topay had been living in Cache with a grandson of the great Comanche raider, who died in 1917.

ANSWERS TO SOME QUESTIONS ABOUT PLOW DOWN

WHY NOT WAIT UNTIL MY CROPS NEED NITROGEN BEFORE PUTTING IT INTO THE GROUND?

Nitrogen, in the form of anhydrous ammonia, does a more efficient job of boosting yield when applied early. An early plow down application enables the nitrogen to do the extra job of helping decompose your turned under stubble. This stubble decomposition makes more plant foods available to next year's crop, while putting your soil in better condition to absorb and hold moisture. These extra plant foods and moisture can mean an increase of 10% or more in yield. That can be a big increase in profit! And by plowing down now, the uncertain spring weather can't interfere with your fertilizer program.

IF I PLOW ANHYDROUS AMMONIA DOWN NOW, ISN'T IT LOST DURING THE WINTER MONTHS?

Anhydrous ammonia is the only form of nitrogen that does not leach. When released, the nitrogen attaches itself to the clay particles and organic materials... actually becomes part of the soil.

Even though the soil bacteria that do the work in stubble decomposition need nitrogen; their use of the nitrogen does not reduce its effectiveness. All the nitrogen you plow down in the form of anhydrous ammonia to speed stubble decay is still available to crops in the spring.

WOULDN'T IT BE JUST AS PROFITABLE TO PLOW DOWN ANOTHER FORM OF NITROGEN FERTILIZER?

First of all, anhydrous ammonia costs less per pound of usable nitrogen. And it does not leach! Other forms of nitrogen fertilizer do not attach themselves to stable parts of the soil. Therefore, they are subject to becoming soluble, which means they can follow water movement, up or down, out of the root zone... leaching.

Because early application of anhydrous ammonia can increase yield and nitrogen in this form is not lost during the winter, it makes sense to plow it down now.

EARLY APPLICATION ALSO MEANS THAT YOU WON'T HAVE THE EXTRA PROBLEM OF FERTILIZER APPLICATION LATER ON WHEN YOU ARE SO BUSY WITH OTHER IMPORTANT OPERATIONS.

You can get quick delivery on Nitromite, Shamrock's fine brand of anhydrous ammonia, from your local dealer.

CALL HIM TODAY. IT CAN MEAN A BIG PROFIT INCREASE FOR YOU NEXT YEAR!

Bulldogs Nip Eagles In Close Cage Opener

By John Shields

A layup by Richard Burns as the buzzer sounded gave Borger's Bulldogs a shaky 50-48 victory over the Canyon Eagles Friday.

The contest, played at Borger, was the cage opener for both clubs.

Canyon looked very impressive in falling to the taller Bulldogs. All of Borger's starters were 6'2 or taller.

The Eagles started practice only the Monday before and Borger has been pounding the hardwoods since Sept. 1.

Canyon was cold from the floor as it managed only 14 of 39 attempts but flipped in 20 of 26 gratis tosses to keep in the game.

Borger connected on 20 of 56 attempted field goals and 10 of 18 free throws.

The score was knotted only three times during the contest, in the second, third and fourth periods. Canyon managed to take the lead only one time. That was early in the third stanza.

The Bulldogs rolled to an 8-0 lead before Canyon managed to hit the basket. Skipper Moore put the Bulldogs on the scoreboard for the first time with two gratis pitches with 2:56 left in the first period. Moore chipped in a ten footer only seconds later. Eddie Poole tossed in the final point of the initial period on a free throw.

Borger led the visitors 10-5 going into the second stanza. Canyon then mounted its own offensive and defensive attacks in the second quarter to knot

the count once and draw to within one point of the Bulldogs at halftime.

Moore came back with two free throws and Moore canned two points to make the score 10-9 at 5:58. Don Breitling canned the next Eagle bucket. Ronnie Cooper popped the nets with a 15 footer to put Borger out front 15-11.

Canyon deadlocked the score at 15-all with 2:43 remaining on four consecutive gratis shots by Breitling and one apiece by Poole and Steve Burgess.

Moore sank a 15 foot field goal and two free throws to bring the count to 20-19 at halftime.

Canyon relied on its free throws to keep it in the game the first half. The Eagles dropped in 13 of 17 from the free throw line up to this point. Only three of 18 field goal attempts were good.

Heighth helped spell the difference for Borger as the Bulldogs gobbled rebounds from both ends of the court.

At halftime the Bulldogs had put up 27 shots from the field but connected on only seven.

Burgess flipped in a 10 foot shot with 7:30 left in the third quarter to give the Eagles the lead for the first and last time, 21-20. Joe Shelton knotted the score for the second time with a free throw.

Then Borger stymied the Eagles with a good defense and a potent offense that produced an 18 point third quarter and limited Canyon to 10 points.

Borger, a run-and-shoot club, started drilling shots home from all over the court. The Bulldogs scored on four 20 footers to boost their lead. Borger took an 11 point lead at one time.

Moore and Burgess had four points apiece and Breitling two in the stanza, all were field goals.

The score was 38-29 going into the final period.

Canyon worked cautiously for its shots and displayed a stunning defense the fourth quarter as the Eagles made a final rally that the Bulldogs won't soon

ferent occasions and the Eagles trailed by only two points, 48-46, with only 25 seconds left on the clock.

Breitling contributed the next two points on a field goal to knot the count at 48-48 with only 10 seconds to be played.

Then came the layup by Burns as the buzzer sounded to give Borger its first win of the season.

Poole was the high scorer for both clubs as he dumped in four field goals and five free throws for 16 points. Moore was next as he chipped in 14 points, followed by Breitling with 10, Burgess five, Richardson two and Jim Whinnery with one.

Joe Shelton was the only Bulldog to get into double figures. He drilled the nets for 11 points.

The Eagles will host White Deer Tuesday at 8:30 p.m. The B team girls will play at 5:30 p.m., and the A team girls battle at 7 p.m. A boy's B game will not be played.

But a tough defense limited the 'Dogs to only two more points while the Eagles bombed the nets for 12 more points and the winner was in doubt.

The scoring went like this. Poole had a layup, Joel Richardson tossed in two gratis pitches, Poole hit a free throw and then a layup. Poole hit two more free throws on dif-

Buff Freshmen Cagers Open Saturday Night

The West Texas State University freshmen kick off their season when they host Texas Wesleyan's freshmen Saturday at 5 p.m.

Two big blows were dealt to the freshmen and coach Fred Cawthon recently.

The first was when guard Harry Lisle of Canyon broke a toe and will be out for three weeks.

The second was when Dickie Dickerson left school after being unable to adjust to the rigid demands of ROTC.

Two other players have given added strength to the freshmen by joining the squad unexpectedly. They are Jim Witherspoon, 6'0, from Eunice, N. M., and Bill Stacey from Massachusetts.

A progress report by Cawthon was given on each member of the squad.

Billy Patton--a 6'6, 210 pounder from Sundown. I am real pleased with his progress. He hadn't played too much prior to coming here. He is doing things required of him real well.

Mickey Fitts--a 6'5, 190 pounder from Canyon. He played a little ball in high school and came on a trial basis and is improving at a very rapid pace. He has real good touch and spring. As soon as he becomes a little more aggressive he should improve his rebounding.

Sherfield Whaley--a 6'0, 180 pounder from Midland. I have been very pleased with his improvement on shooting. He has faced his greatest difficulty in adjusting to the rapid pace and to the fast break and aggressive defense.

Wallace Franklin--a 6'0, 165 pounder from Lamesa. He has a lot of ability, speed, spring and shooting. He needs to concentrate on defense and learning the value of possession of the ball and what constitutes a percentage shot.

Wade King--a 6'0, 175 pounder from Canyon.

WT Grid Eleven Visits Miners For Final Tilt

It could be a long night for West Texas State's Buffaloes when they journey to El Paso Saturday to test Texas Western's Miners in the season finale.

The Buffs will be playing for the first time in the new 30,000 seat Sun Bowl Stadium. Texas Western will close out its first season of play in the new stadium, one of the most modern in the nation.

West Texas will carry a 4-3-1 mark into the contest. The Miners are presently 2-6 for the season. They were scheduled to play the University of Wyoming last Saturday. But due to the death of President Kennedy the game was cancelled.

The Miner's season record doesn't indicate the true strength of the team. They have played some top teams and have dropped some close tilts.

In the last contest Texas Tech eased out a 7-3 win over the Miners. Tech finished the season with a 5-5 mark and was one of the most improved teams in the Southwest Conference.

Texas Western blasted North Texas State 34-7 in its opening game and then edged New Mexico State 14-13 in its third outing.

Head Buff mentor Joe Kerbel said, "Playing on their own field will certainly give them an advantage. A general rivalry has always existed plus we are still playing without some of the people we would like to have and this will give them a big advantage. They have a real good football team and some of their contests were very close and when they had some of their personnel out. Texas Western has a better team than the losses would indicate."

Two Buff seniors have completed their careers at West

Texas State due to injuries. It was hoped that "Pistol Pete" Pedro might be able to play in the final contest. But he is definitely out. The Lynn, Mass. native injured his knee in the third contest of the season against North Texas State and hasn't played since.

He racked up 360 yards in 46 attempts until that time. Pedro still leads the team in rushing. Pete was a leading candidate for All-American honors this season.

Quarterback David "Hoot" Gibson has been out since the sixth game of the season. It was also his final year to play.

Bill Bundy took over at quarterback when Gibson was injured. But it lasted for only a few minutes as he was hurt in the same tilt. Kerbel said Monday that it is still questionable whether Bundy will play or not. It is doubtful that he will.

Halfback Jerry King injured his shoulder in practice last week. It is not definite that he will be sidelined, but it is very likely. He injured the shoulder when he fell to the ground while practicing. It wasn't in contact work.

The quarterback's role will either go to one of two freshmen, Greg Klein or David Fleming. Both have performed very well.

Jerry Richardson will start at a halfback post along with Tony Waters. It will be Richardson's final game to play for the Buffs.

Fullback will be either Bill Lorraine or Ollie Ross. Both have done outstanding work throughout the season. Both are seniors.

Starting at ends will be seniors Jim Ostrander and Quinton Eppinette.

Guards will be senior Jim Denny and Willie Thompson.

It will be Thompson's first starting role. He replaces Sims on the starting unit.

Tackles will be seniors Jack Mayfield and John Varnell.

Charlie Daves will be the starting center.

"Texas Western is primarily a defensive club. The Miners stress defense and make the other team make the mistake and then they take advantage and use ball control. However, since quarterback Jerry Tucker is such a good passer they are very effective throwing and this makes their ground game more successful," scouting coach Joe Rector stated.

Tucker is a 5'10, 175 pound sophomore. He is a real fine quarterback and can throw the ball real well.

End Jim Evans, 195, is Tucker's prime target. The other end is Ulysses Kindall, 197, also a fine receiver.

The Miners have three real fine, hard running fullbacks. They are Stan Redder, 197, Ray Jackson, 202, and Dan Mason, 195.

At halfback is speedster Julius Glosson, 178, who runs the 100 yard dash in 9.6. He is very hard to catch when he gets outside, Rector noted. The other halfback Lewis James, 190, is a real fine blocker and pass defender.

The lines will average about the same. Texas Western will average 205 and West Texas will be slightly over 200.

Game time is 8 p.m.

WT Band Plans First Concert

West Texas State University Buffalo Band will give the first concert of the year December 15 in the Fine Arts theatre on the campus, Cary Carner, band director, announced.

The Christmas performance of the 120-piece band will begin at 3 p.m. and eight numbers will be played.

Buff Cagers Gird For Opening Game Here

By John Shields

Head coach Jimmy Viramontes will unveil his 1963 edition of the West Texas State University cagers Saturday at 7 p.m. in the WT Fieldhouse.

The Buffaloes will host Texas Wesleyan in their opening contest.

It will be Viramontes' initial season at the helm and with hopes of returning basketball fortunes to West Texas State which it once enjoyed.

Viramontes came to West Texas from the University of Texas where he was freshmen coach. He is well known throughout the country for his coaching.

The task undertaken by Viramontes and the Buffs is a tough one. West Texas has a young squad with a rough 24 game schedule. Only 11 home games are scheduled for the season.

Two seniors dot the lineup from a squad that finished 5-13 last season. They are Scottie Pierce, a 6'7 senior from Post, Texas, and Frank Schaffer, a 6'8 Borger product.

Following is a progress report from Viramontes about each member of the squad. It was given Friday.

Dale Burrows--has just rejoined the team and is not at full strength. He looked good before he was injured and retained an awful lot of knowledge gained before he was injured. Basically he is doing a real good job. Burrows is a 6'7, 200 pound junior from Albuquerque, N. M.

Joe McWilliams--looks good in a lot of phases. Like to see him come along on defense. It is hard for a little guy to adjust to running zones. He is only a sophomore, but a good one. McWilliams is a 5'9, 160 pounder from Lubbock.

Marvin Mitchell--a 6'2, 180 pound sophomore from Detroit, Mich. Looking a lot better, especially on defense. He is setting an idea and putting it into action instead of the thinking stage.

Scottie Pierce--had a series of injuries. He first hurt his back, then his ankle and now he has an intestinal bug and is not working out. These absences have made him real hungry to play. When he did practice between injuries he made some mistakes. I am pleased with the fact that his intention is good and because of this I can see his mistakes getting corrected as soon as he returns to practice.

Kirby Pugh--a 6'5, 218 pound junior from Abilene. He transferred from San Angelo Jr. College. I am real pleased with his desire, quickness and team play. He needs to improve on teaming down his anxiety. His over anxiousness is making him produce at a lesser level.

Frank Schaffer--as of lately he has looked the best since we started workouts in his running, jumping and wanting to play. But, as of yet he has not made use of his main attribute which is shooting. As soon as he learns when and where his shots are to come then he will be a greater asset to the team.

George Scott--a 5'10, 170 pound junior from McAdoo. I have been very pleased with George with the exception of misuse of his quick hands. As soon as he learns to gain position and then use his hands he will be an outstanding defensive player. His shooting has always been and still is his top attribute.

David Shearod--a 6'5, 188 pound sophomore from Midland. I have been very pleased with David in the fact that he has further to go in development due to his tremendous potential. But at this stage he finds himself playing too high on defense and dribbling the ball too high. His shooting, driving, rebounding and speed are his greatest assets at the present.

Gail Simpson--a 6'0, 163 pound sophomore from Borger.

Gail has been handicapped with a strained back and has missed practice for ten days. He was looking good before he was injured and I was very pleasantly surprised at how much he retained and how quickly he overcame the layoff. He is stressing shooting at present to parallel his floor game and defensive play.

James Strahan--a 5'9, 140 pound junior from Houston. James is doing a real good job on floor generalship and shooting. He needs to concentrate his efforts on improving his defense.

That concludes those on the varsity.

Viramontes stated, "The unusual thing about this ball club is that we have five out of the ten players in the small size category as far as basketball is concerned. Mitchell, 6'2, and Simpson, 6'0, actually overshadow the three mites of Scott, McWilliams, and Strahan. It is really most unusual and I doubt if there has ever been a team this small here."

"I am real pleased with the team as a whole, individually, collectively and with their attitude and discipline. I can see mistakes being corrected everyday. This is only a result of those two factors--attitude and discipline. Defensively the team has improved tremendously on multiple defensive, man-to-man and zones. There is a tendency of confusing yourself in these and I feel that confusion is at its minimum and the plus mistakes derived outnumber the minuses," Viramontes continued.

Texas Wesleyan is the defending champ of the Big State Conference. The Rams return the major portion of their personnel plus some top transfers.

The Rams have pretty good size, too. Possible starters include Marvin Picha, 6'7, Irvin Rue, 6'6, Graham Davis 6'5, James Brown 6'3, and Larry Graham, 6'2. All except Davis started most of last season.

Rue is an outstanding player. He averaged 17.7 shooting and 13.6 on the boards last year. His top game was when he scored 42 points against Howard Payne.

"Everybody we play will be tough. I feel we will have worthy opponents every time we play," Viramontes said.

Pierce and Schaffer are the returning lettermen and Burrows was a squadman. Schaffer was out 10 games the latter part of the season due to a broken arm.

Scott lettered at West Texas two years ago.

Those up from the freshmen unit include: Simpson, McWilliams, Mitchell and Shearod.

The varsity plays at 7 p.m. and the freshmen battle at 5 p.m. The early playing times are so fans will be able to listen to the final football clash between the Buffs and Texas Western at El Paso the same night.

Women Drive Faster Than Most Males

Records show that there are fewer women than men who drive at excessive speeds, but the fairer sex seem to drive faster.

Since June of this year, 19 cases of driving 90 miles an hour or above have been brought before Justice of Peace Bill Wilson in Randall County.

Wilson said 13 of the drivers were men and six of them were women, but he continued by saying all six women were driving above 100 miles an hour. The men, on the other hand, were clocked at 90 miles.

"Most of the time it is women who drive 100 miles or better. I'm not certain why, but seldom do we have a man in here who has been driving 100 or above," he said.

Wilson also pointed out recent state records show Texas juvenile offenses have been on the upswing during 1963.

In urban areas within the state the number of juvenile crimes has gone up. The report shows that within the first six months of 1963 the number of burglaries in cities over 2500 in population was up over 1 percent. Percentage of increase in aggravated assault cases was up 11.4. Theft among juveniles was up from 5504 offenses to 6933.

Narcotics violations were down 48 percent among the youths and murder cases were down 12 percent. The number of rape cases offenses was recorded down 10 percent over last year.

Total offenses were up 15 percent in the urban area of Texas, Wilson concluded.

WHEN ONE PLUS ONE DOES NOT EQUAL TWO

In mathematics the addition of one and one will always equal two. But in pharmacy this is not true all the time. Every medicine has its own particular use but sometimes two medicines working in combination will produce a third different result.

There are many such medicines and we are familiar with all their functions. When a physician gives you two prescriptions in treating a condition, this combined result could be what he is striving for. Always have every prescription you are given filled without delay and take as directed.

Your doctor can phone us when you need a medicine. Registered Pharmacist on duty 8 a.m. till 8 p.m. daily (Sundays and Holidays 8 a.m. till 6 p.m.). A great many people entrust us with their prescription. May we compound yours?

Seated at her dining table, Mrs. Fred Marshall selects her favorite recipe for Pumpkin Pie that she has submitted for our readers this week. Mrs. Marshall, mother of three married children, raises fresh pumpkins on the family ranch near Arch, New Mexico.

Mrs Fred Marshall Shares Holiday Pumpkin Pie Recipe

By Lorena Miller

Mrs. Fred Marshall, mother of three and grandmother of eight youngsters, is sharing her recipe for Pumpkin Pie with our readers this week.

Mrs. Marshall, the former Jewel Tillman of Collin and Young Counties, was raised by an older sister, Mrs. Maude Harper, following the death of her parents when she was 12 years old.

On June 25, 1913, Miss Tillman married Fred Marshall who was also reared at Graham, Texas. The couple moved to Canyon in 1923 and bought a ranch east of town which they operated for 12 years before buying their present home at 903 6th Avenue.

The Marshall's three bedroom home features a U-styled kitchen that was "one of the first built in Canyon" according to Mrs. Marshall who stated that the kitchen is very convenient and even though it is more than 18 years old it features ideas that are now being used in most modern homes being built today. The stove joins the built in cabinets with a circular section of utility shelves.

The large living room adjoins a dining room that is graced with a floral arrangement of artificial flowers that Mrs. Marshall makes as one of her hobbies.

"I enjoy sewing for my grandchildren and I do a lot of handwork for our own use," said Mrs. Marshall as she commented on making three afghans in the last year along with hand-worked pillows and a number of other items.

"My grandchildren at Arch often visit during the afternoon and I like to read them stories," Mrs. Marshall said. The Marshalls have a ranch home at Arch, New Mexico near their son, Charles, and spend a great deal of their time at the ranch.

The Marshalls have three married children, Fred Marshall, Jr., Francis Marshall Dolcater and Charles Marshall.

Fred Jr. owns and operates a parking lot for a radio station in Denver, Colorado. He graduated from Canyon High School and attended West Texas State University. Married to the former Viola Snow of Oklahoma City, Oklahoma, Fred Jr. and his wife have two children, Mrs. Jeanine Splan of San Diego, California and Jim Marshall who is living in Canyon.

Jim is employed by the North Texas Producers Association and is married to the former Francis McMahon of Matador. Mrs. Jim Marshall is employed with Pioneer Natural Gas Company in Canyon.

The Marshall's daughter, Francis, graduated from Canyon High School and attended West Texas State University before marrying H.D. Dolcater. The Dolcater's make their home in Amarillo and operates a shoe repair firm. They have one daughter, Donna, who is married and the mother of two children.

A graduate of Canyon High School, Charles Marshall is the foreman for his parents ranch at Arch, New Mexico (16 miles

east of Portales). His wife, Dorothy Dean, is the daughter of Mrs. Ruby Stallings of Canyon and the couple has five youngsters.

A brother of Mr. Marshall is Elmer Marshall who also lives in Canyon. The brothers have three sisters, Mrs. Carl Vanarsdale and Mrs. Rob Burns, both of Graham and Mrs. Glenn Carter of Odessa. Mrs. Marshall's brother, David C. Tillman, lives in Yucipapa, California and her sisters are Mrs. R. H. Campbell of Houston, Mrs. Nan Standefer of Slaton and Mrs. Maude Harper of Garland.

"We spend about half of our time at Arch," said Mrs. Marshall as she spoke of the ranch whose east fenceline is on the Texas and New Mexico state lines.

As a rancher, Fred Marshall has recently begun raising quarterhorses as a profitable hobby. He enters two horses in

Tom White On A&M Livestock Judging Team

Tom White of Canyon will participate in the International Livestock Exposition's Collegiate Livestock Judging Contest to be held in Chicago Saturday.

White, who attends Texas A & M, is among seven members of the senior livestock judging team to compete against almost 40 major agricultural colleges and universities entered in the contest.

Doug Wythe, Jr., assistant professor in the A & M animal husbandry department and team coach, left with the team Friday for the international competition. The group will practice-judge enroute at the Bridwell Hereford Ranch near Wichita Falls, and at Kansas State University, University of Nebraska and Iowa State University.

Winners of the international judging contest will be announced at an awards banquet December 1.

Two Accidents Reported Last Week In Town

Two minor accidents were reported by Canyon city police last week.

A car and pickup were involved in an accident in the 1600 block of Fifth Avenue Thursday afternoon in Canyon.

Raymond A. Brundige was driving the pickup and Norman Eugene Glenn was driver of the car. Damage was minor to both vehicles.

The second accident occurred Friday morning at the intersection of 23rd St. and Fifth Avenue. Edna Q. Williamson of Ardmore, Oklahoma, was driving one of the vehicles and Sandra B. Henderson was the driver of the second car.

Damage to both cars was estimated at \$130.

Edwin Harris was the investigating officer for both accidents.

various quarterhorse shows each year and has received 17 trophies and a multitude of ribbons for first place, reserve champion and grand champion during the two years that he has been active in raising and showing quarterhorses.

The Marshalls also raise beef cattle on the ranch that has two irrigation wells. One of the wells is used only for the garden truck patch and orchard at the ranch. Mrs. Marshall often cans vegetables and fruits from their truck patch.

"My grandchildren disliked pumpkin pie until they saw me preparing the pumpkin," commented Mrs. Marshall. To prepare fresh pumpkins, Mrs. Marshall quarters the pumpkin, remove the seed and then steams it in a large pan until tender. When the pumpkin is tender, remove the pulp from the hull with a spoon and mash.

A favorite of Mrs. Marshall, the recipe for Pumpkin Pie, is listed in the Country Kitchen Cookbook that was a gift from a friend in 1950. The recipe follows:

PUMPKIN PIE
2 1/4 cups cooked, strained, pumpkin
1 cup brown sugar
1 1/2 tsp. cinnamon
1/8 tsp. cloves, if desired
1/2 tsp. nutmeg
1/2 tsp. ginger
3/4 tsp. salt
3 eggs
1 1/2 cup rich milk (scalded)

Mix pumpkin and sugar, add spices. Then add slightly beaten eggs and scalded milk. Mix well. Pour into unbaked pie shell with good rim.

Bake for 10 minutes at 450 degrees to set crust then reduce heat to 325 degrees and bake until knife inserted in center comes out clean.

This recipe makes filling for a deep 9 inch pie. For smaller pie tin use 2/3 of recipe. Editor's Note: Christmas Holiday recipes needed!

Other representatives attending will be Mrs. Robert Busted, WSCS president; Lawrence Brotherton, church lay leader; Hollis Cook, church school superintendent; Harry Hungate, district steward; and Jack Swartzell, annual conference delegate.

Canyon Banker Favors Artists Of Southwest

BY FRED TRIPP

Levi Cole is a handy fellow to have on the premises.

He's so handy about business and finance that he's president of First National Bank in Canyon.

He's so handy about gardening and floriculture that his roses and dahlias are the envy of flower buffs for miles around.

Now he's by way of becoming a discriminating amateur collector of paintings and something of an expert on painters of the Southwest.

Cole took his first tentative step as a collector some 10 years ago when he bought a small landscape because "I liked to look at it." This element of honest personal taste, as well as a continuing fondness for landscapes, remains the touchstone by which he decides whether he wants to own a painting.

"If I don't like it, I don't care what it may be worth as an investment," he says. "I just don't want it."

To date, Cole has acquired about 40 excellent oils by some of the outstanding pictorial interpreters of the Southwestern scene and history. A few of these canvases hang on the walls in his home and a few are on public show at First National

Bank. The rest are kept in a bank vault.

Cole deplores the lack of space to display these treasures properly, for his own as well as for other persons' pleasure, but so far has not hit on any economical solution to the problem.

Early this year, however, he put the entire collection on show at Panhandle-Plains Historical Museum. The show was such a success that he plans on a repeat performance next year.

Cole's interest in regional art, says his old friend Boone McClure, curator of Panhandle-Plains Historical Museum, became publicly evident about eight years ago when he strolled in and bought a painting from one of the museum's special shows.

"It was something of a surprise," McClure recalls. "We knew about Levi's interest in horticulture, but it seems he'd never said much about pictures. Later I invited him to come with me to an out-of-town exhibit where I thought I could pick up something for the museum. He liked it so much that pretty soon he was going to other shows whenever time allowed."

As a result of this experience, plus much study, reading, and conversation with painters, Cole developed an expertise that

led to his appointment to the art committee of the Panhandle-Plains Historical Society about seven years ago. He is now one of the ranking members of the committee. Other members are Hamlin Overstreet of Farwell, chairman; Dallas artist Reveau Bassett, Mrs. Olive Vandruff Bugbee of Clarendon, and Dr. R. P. Jarrett of Canyon.

Cole admits that as a beginner he fortunately allowed his enthusiasm to be tempered by the critical judgment of Harold Bugbee, dean of Panhandle artists for many years before his recent death, and that he still avails himself of the scouting talents of McClure and Mrs. Olive Bugbee, art director for the Panhandle-Plains museum and a brilliant painter in her own right.

"They know something about the kind of pictures that appeal to me, and when they spot something they think I might like I usually try to buy it," Cole says.

In practice this means the object of the collector's affection is generally (1) a landscape; (2) an objective representation, as opposed to abstract or impressionistic; (3) the work of a Southwestern regional artist, or one who has lived and worked in the Southwest; (4) of such a character that Cole likes to look at it.

The fruit of these standards today is a collection that includes some of the best and most typical work of such artists as Bugbee; Rolla Taylor, the court reporter who specializes in preserving on canvas the vanishing scenes of old San Antonio; Frank Hoffman, esteemed by Cole as the equal of Remington; Robert Wood, the San Antonio painter who went to California and enduring fame; Reveau Bassett of Dallas, one of the most brilliant of contemporary painters of waterfowl; Frank Reaugh, master of the Western scene in oils or pastels; and Olive V. Bugbee, whose wildlife studies are ranked by some viewers as equal to the best of John James Audubon.

LEVI COLE, president of First National Bank in Canyon, is well on the way to acquiring a topnotch collection of the work of noted painters

of the Southwest. Here he stands by a colorful canvas painted by Rolla Taylor of San Antonio.

Much of the collection was acquired, Cole says, through the Coppini Academy of San Antonio, a foundation which provides a channel for Western artists to bring their work to the attention of the public. But at least one of his treasures was painted because he had his heart set on owning it.

Some years ago, the museum here put on exhibit a collection of pictures sent by the Coppini Academy. One of the paintings was a glowing representation of a wild turkey in its native habitat. The painting was by Olive Vandruff.

Says McClure, "Levi took one look at it and said, 'That painting isn't going back to San Antonio.'"

"Then he strolled away. A little later, Mr. M. K. Brown of Pampa came up, bought the picture and gave it to the museum."

"Next day, I took the check over to the bank. Levi happened to see it and asked what Mr. Brown had bought. I told him."

"'You can't,' he said. 'You just can't. I told you I wanted that picture.'"

"I reminded him that all he said was that the picture wasn't going back to San Antonio."

"'But I meant that as a firm offer,' Levi said."

"The upshot was that he asked Olive Vandruff—later Mrs. Harold Bugbee—to paint another picture similar to the one given to the museum. She did, and now it hangs in the bank, the showpiece of that part of the collection on display there."

To balance this happy anecdote, Cole recalls the time he
